Your grade will be determined as a percentage of a total of 1000 points (as outlined above). For example, a student accumulating 925 points out of 1000 has earned a 92.5% or an A in the course; a student accumulating 670 points earns a 67% or a D in the class. We will use the following standard scale to determine your final course grade.

These activities/assignments correlate directly with the six objectives for this course. Keep this list in your course folder to check off each assignment as you turn them in. Record the deadlines and your scores on each activity.

Total Points	Grade
895 and up	A
795 to 894	B
695 to 794	C
595 to 694	D
0 to 594	F
