University System of Georgia Petition for Classification of Students for Tuition Purposes

INSTRUCTIONS

University System of Georgia students are responsible for registering under the proper tuition classification. Students who have been classified as out-of-state for tuition purposes and believe they are entitled to be classified in-state for tuition purposes may petition the institution for a change of status. For more information about the classification of students for tuition purposes, see Board of Regents Policy Manual, section 403.02 Classification of Students for Tuition Purposes (<http://www.usg.edu/regents/policymanual/400.phtml>). For petition filing dates, consult with the Tuition Classification Officer at the institution to which you have applied for admission.

Who should file this petition?

This petition should be submitted **only** if you have already been notified that you have been classified as out-of-state for tuition purposes and you think that further information could alter that decision.

You must demonstrate that you, your parent, your spouse or your court appointed guardian (if you are a minor) is a legal resident of Georgia. You may establish this claim by providing documentation to support the definition established by the Board of Regents. **Please note that establishing in-state status for tuition purposes as defined by the Board of Regents is different than residency for purposes of such things as voting, having a GA license/tag etc., and requires more than establishing eligibility to vote, securing a driver's license, and/or paying taxes.**

Who has the best claim for in-state status for tuition purposes?

You, your parent, your spouse or your court-appointed guardian should meet **ALL** the following criteria:

- The person has always resided in Georgia or can demonstrate that they currently reside in Georgia and residence in any other state or country has been abandoned. Maintenance of ties with another state or country will contribute to an out-of-state classification and include such things as: financial support from a person who is a resident of another state or country, payment of income taxes to another state, registering a vehicle or securing a driver's license in another state or country.
- The person has lived in Georgia for the 12 consecutive months immediately preceding the start date for the term and their 12-month durational requirement has not included time attending any higher educational institution in Georgia on a full-time basis.
- The person can demonstrate that they moved to Georgia for purposes other than attending any educational institution in the State of Georgia.
- The person can demonstrate economic self-sufficiency and has contributed to the state by paying meaningful taxes.
- The person is a U.S. citizen, Resident Alien or is in a visa status permitting indefinite or permanent residence in the United States.

List of Documents which may be necessary:

1. A letter/statement from your employer(s) verifying any employment during the last 12 months. The letter/statement should indicate dates of employment and whether you had full or part-time employment. The letter/statement should be on company letterhead or be notarized.

A copy of the lease or deed for your residence(s) during the past 12 months, receipts from the payment of property taxes. **If the lease or deed is not in your name**, please also provide a notarized statement from the person who is on the lease stating that you do/did in fact live with him/her and for how long you have/had continuously resided with this person.

University System of Georgia

Policy for Classification of Students

for

Tuition Purposes and Out-of-State Waivers

Under the Constitution and laws of Georgia, the Board of Regents of the University System of Georgia was created to govern, control and manage a system of public institutions providing quality higher education for the benefit of Georgia citizens. The state, in turn receives a substantial benefit from individuals who are attending or who have attended these institutions through their significant contributions to the civic, political, economic, and social advancement of the citizens of the State of Georgia.

The Board of Regents has adopted the following policies governing the classification of students as in-state and out-of-state for tuition purposes. (Effective Fall 2007)

403.02 Classification Status for Tuition Purposes

A. United States Citizens

- 1) a. An independent student who has established and maintained a domicile in the State of Georgia for a period of at least 12 consecutive months immediately preceding the first day of classes for the term shall be classified as “in-state” for tuition purposes. It is presumed that no student shall have gained or acquired in-state classification while attending any postsecondary educational institution in this state without clear evidence of having established domicile in Georgia for purposes other than attending postsecondary educational institution in this state.
 - b. A dependent student shall be classified as “in-state” for tuition purposes if either i) the dependent student’s parent has established and maintained domicile in the State of Georgia for at least 12 consecutive months immediately preceding the first day of classes for the term and the student has graduated from a Georgia high school or ii) the dependent student’s parent has established and maintained domicile in the State of Georgia for at least 12 consecutive months immediately preceding the first day of classes for the term and the parent claimed the student as a dependent on the parent’s most recent federal income tax return.
 - c. A dependent student shall be classified as “in-state” for tuition purposes if a U.S. court-appointed legal guardian has established and maintained domicile in the State of Georgia for at least 12 consecutive months immediately preceding the first day of classes for the term provided that appointment was not made to avoid payment of out-of-state tuition and the U.S. court-appointed legal guardian can provide clear evidence of having established and maintained domicile in the State of Georgia for a period of at least 12 consecutive months immediately preceding the first day of classes for the term.
- 2) a. If an independent student classified as “in-state” relocates temporarily but returns to the State of Georgia within 12 months, the student shall be entitled to retain in-state tuition classification.
 - b. If the parent or U.S. court-appointed legal guardian of a dependent student currently classified as “in-state” for tuition purposes establishes domicile outside of Georgia after having established and maintained domicile in the State of Georgia, the student may retain in-state tuition classification as long as the student remains continuously enrolled in a public postsecondary educational institution in the state, regardless of the domicile of the parent or U.S. court-appointed legal guardian.

B. Noncitizens

Noncitizens initially shall not be classified as “in-state” for tuition purposes unless there is evidence to warrant consideration of in-state classification. Lawful permanent residents, refugees, asylees, or other eligible noncitizens as defined by federal Title IV regulations may be extended the same consideration as citizens of the United States in determining whether they qualify for in-state classification. International students who reside in the United States under nonimmigrant status conditioned at least in part upon intent not to abandon a foreign domicile are not eligible for in-state classification.

Relocation to the state must be for reasons other than enrolling in an institution of higher education. This waiver will expire 12 months from the date the waiver was granted.

Relocation to the state must be for reasons other than enrolling in an institution of higher education. These individuals would be required to show clear evidence of having taken all legally permissible steps toward establishing legal permanent residence in the United States and the establishment of legal domicile in the State of Georgia. Students currently receiving a waiver who are dependents of a parent or spouse possessing a valid employment-sponsored visa may continue to receive the waiver as long as they can demonstrate continued efforts to pursue an adjustment of status to U.S. legal permanent resident (BR Minutes, June 2006).

If the parent, spouse, or U.S. court-appointed legal guardian of a continuously enrolled nonresident student establishes domicile in another state after having maintained domicile in the State of Georgia for the required period, the nonresident student may continue to receive this waiver as long as the student remains continuously enrolled in a public postsecondary educational institution in the state, regardless of the domicile of the parent or U.S. court-appointed legal guardian.
