

LANDSCAPE INSTALLATION PROJECT

OBJECTIVE: To estimate cost to maintain the grounds around Horticulture and Chambliss Buildings

PROCEDURES:

1. Students are to complete project in groups. Each group will appoint a supervisor.
2. Each group will review the basic maintenance computer program. After reviewing the program the group will gather the necessary information to create an estimate.
3. Each group will complete an estimate for the Environmental Horticulture Bldg. The following must be submitted:
  - a. print-out of the completed bid spreadsheets
  - b. completed bid with specification

EVALUATION: Students will be evaluated on the participation, calculations and thoroughness of project.

WEIGHT: 100 points

DUE DATE: October 2, 2008
