Certificate in Instructional Support Personnel (ISP)
Designed for the Paraprofessional

This program of study for Instructional Support Personnel is designed to develop knowledge in core subject matter areas necessary to increase achievement levels for all students. Those seeking this certificate will also be able to strengthen their interpersonal, communication, and management skills. All coursework completed satisfactorily in this program will count toward an Associate of Science transfer major in Early Childhood Education, in response to the requirements of No Child Left Behind. Students must follow the application procedures of ABAC, take appropriate placement exams, and complete any required Learning Support courses prior to acceptance into this certificate program.
