

Academic Information

The Abraham Baldwin Agricultural College Catalog is the primary source for academic information concerning grades, class standing, probation, exclusion, and re-admission. The following items are included in the Student Handbook for ease of access by students. However, the information below in no way supersedes or replaces information contained in the official College Catalog.

Student Development Specialists in the Enrollment Services Office, located on the second floor of the J. Lamar Branch Student Center, are available to help students interpret academic policies regarding residency requirements for fee purposes, admission and readmission, degree requirements, registration, transfer of credit, academic transcripts, new student orientation, graduation, and enrollment verification.
