ABAC JOB RESIDENCY REQUIREMENTS – JOB POSTINGS

In order to strike a fair balance between offering internal career growth opportunities for employees and the necessity of ensuring business continuity, ABAC has adopted the following job residency requirements to be eligible for job posting opportunities.

Probationary employees in their initial 180 day probationary period are not eligible to apply for job postings.

Employees who have completed their 180 day probationary period but have not yet completed one year job residency, will require supervisory approval to apply for job postings.
