Alternate route to login to ADP when experiencing JAVA issues.

1. Login to the portal
2. Select Employee from the upper left corner of the page (Change from Manager if selected).
3. Select Time and Attendance, Welcome.
4. Select the option for "All other employees: Click Here to access eTime." (Not the one for managers!)
5. Select from the resulting web page Quick Find from the center section, top.
6. You will find yourself in a web only version of the Quick Find in the role of manager (very similar to the one in Java.)
7. Enter * or a name to find, click Find button.
8. Click on the name of the person's timecard you need to review/approve, a yellow highlight will appear for the line.
9. Select Timecard from the upper left corner of the page.
10. The rest works pretty much the same way as it does with Java, except it is faster and works.
