Welcome to online Pharmacology for Health Professionals PNU 1104

This course is an online/hybrid course. Course content is presented via a syllabus/workbook, textbooks, and Desire2Learn online learning platform. Students are required to attend an orientation session and complete examinations in the campus classroom setting.

The orientation meeting for PNUR 1104 is mandatory. You are only required to attend one orientation session. You do not need to notify the instructor as to which session you will attend. We will review the syllabus and your access to the class in D2L in the orientation meeting.

In order to attend the orientation meeting/class, a voucher is required. This voucher may be printed from the Nursing web page at the following link - http://www.abac.edu/academics/schools/nursing/forms-resources-3. Once the voucher has been processed by the bookstore, the student will bring the voucher to the orientation meeting to receive the syllabus/workbook for the course. Cost for the voucher is $35.00. The voucher is in addition to your textbook requirements. Orientations are held in computer lab # 257 in the Health Sciences Building.

No individual examination times or online testing is allowed. You must be able to attend the scheduled exam dates and time. The exam dates and times are set and cannot be changed. All exams are given in the Health Sciences Building.
