AlcoholEdu + Haven

Who Needs to Take These Programs?

Every incoming new and transfer student age 18 to 20 years of age is required to take AlcoholEdu and Haven. New and transfer students age 21 and over are required to take HavenPlus.

What if I Have Already Taken the Programs at Another Institution?

ABAC can only see accounts completed by students who registered with an ABAC ID and cannot see accounts from another institution.

If you can show proof of completion for AlcoholEdu and Haven with a passing grade of 85% or higher within the last year, it might be possible to exempt out of taking one or both of the Programs through ABAC.

Email screenshots of the Program Progress sections of AlcoholEdu and Haven from your old account to bhughes@abac.edu. The image should show your name in the upper right hand corner, your exam grade, and the completion date of Part 2 in the screenshot for each program.

You will then be notified by the program administrator as to the next steps you need to take to meet ABAC’s requirements or if you can be exempt from the Programs. Until you receive notification from the program administrator, do not assume you are exempt from these requirements.

How Long Can I Expect the Programs to Take?

AlcoholEdu will take approximately 1.5-2 hours to complete.

Haven will take approximately 1 hour to complete.

I’m not 21, but I Still Drink. Will My Answers Be Private?

The AlcoholEdu program will include surveys about your personal health behaviors to help personalize your experience and measure students’ alcohol-related attitudes and behaviors. All survey responses are confidential; ABAC will only receive information about the student body as a whole and never your individual answers as a student.

What Else Should I Know?

- Do not use any other email address besides your ABAC email as we use this to identify you as a student.

- Do not input your social security number anywhere on the registration page for identification.

- You may take the program in multiple sittings, but make sure to click on the “next” button after completing a section before logging out. If you do not progress to the next section first, you will have to repeat the previous section.

- If you experience technical problems, click the “help” button to access the 24/7 help center from Everfi.

What if I have Questions?

Please contact bhughes@abac.edu for any questions about requirements or verification.

If you have a technical issue, use the “help” button to access AlcoholEdu directly, 24 hours a day. You may also call 866-384-9062. The College cannot provide technical support for the program.
AlcoholEdu + Haven: About The Programs

About AlcoholEdu

AlcoholEdu® for College is an educational online program about alcohol and other drug safety. It’s completely confidential and individual student responses about alcohol and other drug behavior are not accessible by ABAC or any other party.

AlcoholEdu®, powered by Everfi, provides useful, research-based information to help ABAC students make health decisions while they are here at ABAC and to help them develop healthy lifestyle habits that will benefit them the rest of their lives.

AlcoholEdu®, incorporates the latest evidence-based prevention methods to create a highly personalized user experience that inspires students to reflect on and consider changing their drinking behaviors.

A federally funded, 30-campus randomized control trial found that AlcoholEdu reduces high-risk drinking and alcohol-related harms among college students. The program motivates behavior change by:

- Resetting unrealistic expectations about the effects of alcohol
- Linking choices about drinking to academic and personal success
- Helping students practice safer decision-making
- Engaging students to create a healthier campus community

For more information about the research on this program, see:

About Haven

Haven is an online sexual violence awareness and prevention program. Have is new this year as part of a federal mandate under the the Campus SaVE Act for all students to learn about sexual violence. These regulation are enforced by the U. S. Department of Education.

One in five college women will experience some form of non-consensual sexual activity by graduation. Additional, one in 71 men will experience rape at some point in their lives, with one in six victimized with sexually abusive experiences by the age of 18. The widespread impact of sexual violence on students presents an urgent and pressing challenge for our nation’s campuses. Haven – Understanding Sexual Assault™ addresses the critical issues of sexual assault, relationship violence, and stalking, which impact countless college students across the country.

Have uses a population-level approach to educate all students on the issues associated with sexual assault and relationship violence, taking into account their unique perspectives and experiences, providing:

- Key definitions and statistics
- Reflective and personalized content
- Bystander skill and confidence-building strategies
- Campus-specific policies, procedures and resources
- Rich data summaries to inform future programming
